

Phase II Trial of Response-Adapted Therapy Based on Positron Emission Tomography (PET) for Bulky Stage I and Stage II Classical Hodgkin Lymphoma (HL)

Version date: 03/01/2013

Checklist for Submission of Radiation Oncology Quality Assurance Materials

Patient: _____ Protocol: **C50801** Registration # _____

Send material c/o:

Quality Assurance Review Center

Attention: CALGB Materials

640 Geo. Washington Hwy

Building A, Suite 201

Lincoln, RI 02865

Radiation Oncologist:

Name: _____

Address: _____

Phone &

FAX: _____

E-Mail: _____

Date Radiation Began: _____

Rapid Review materials must be submitted within the first 3 days of the start of radiotherapy:

DATE
SUBMITTED

_____	Copy of Pre chemo and Post chemo diagnostic CT scans, PET scan (include reports)
_____	Digital treatment plan (recommended)
_____	RT-1 Dosimetry Form
_____	Prescription sheet
_____	Treatment planning system summary report that includes the MU calcs, beam parameters, calculation algorithm, and volume of interest dose statistics
_____	Color Isodose Distributions in axial, sagittal and coronal planes
_____	Dose volume histograms (DVHs)
_____	First day portal images (or hard copy of real time portal images) of each treatment field
_____	DRRs (digitally reconstructed radiographs) of each treatment field
_____	Photograph of patient in the treatment position

Final Review materials must be submitted within 1 week of the completion of radiation:

_____	Completed RT Daily Treatment Chart, including prescription, daily and cumulative doses
_____	RT-2 Total Dose Record
_____	All revised data if modifications made subsequent to initial data submission

Please enclose a copy of this Checklist together with the RT materials you submit. All materials must be labeled with the CALGB assigned protocol and Registration number.

Please contact CALGB CRA by calling Tel:(401) 753-7600 or FAX: (401)753-7601 for clarification as necessary. Thank you for your ongoing co-operation.
