

Kenneth Ulin, PhD

With sadness, the staff at QARC / IROC Rhode Island and the Department of Radiation Oncology at the University of Massachusetts Chan Medical School share that Kenneth Ulin died on Thursday, May 15. Ken spent his life helping others. After receiving his AB in Physics from Harvard he began teaching high school math, physics, and computer programming in Massachusetts and in Puerto Rico. Once returning to Massachusetts, he received his MS and PhD in Physics from Tufts University. He worked in the Department of Radiation Oncology at the New England Medical Center for 16 years and in 2001 joined the Department of Radiation Oncology at the University of Massachusetts Medical School and QARC until his retirement in 2023. As Senior Physicist, and member of the AAPM and ASTRO, Ken was in the forefront of improving clinical trials and radiation oncology. He was also a skilled silversmith. His contributions will be remembered, and he will be missed.
